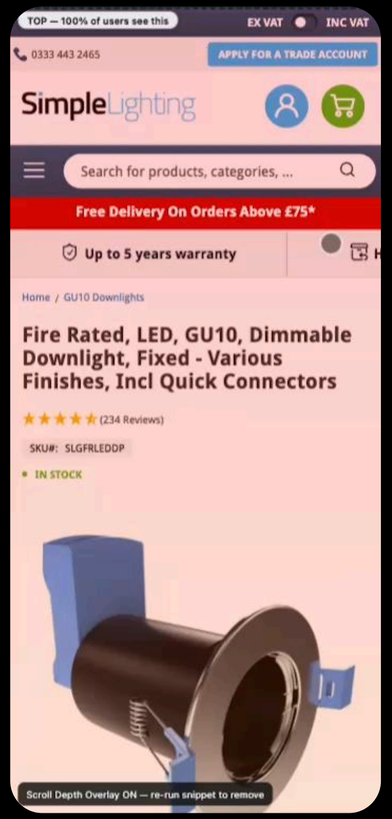
From Buried CTA to Immediate Commitment Opportunity

Add to Basket visibility:
~60–70% scroll depth

Reviews visibility:
~80–90% scroll depth

Commercial Impact:
- Conversion trigger buried
- High friction before action
- Reliance on highly committed users

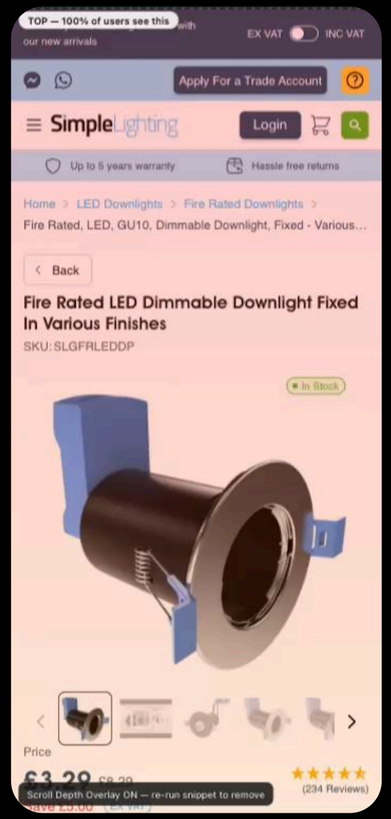


Legacy Structure

Add to Basket visibility:
~25–35% scroll depth (often above the fold)

Reviews visibility:
~50–60% scroll depth

Commercial Impact:
- Conversion opportunity appears early
- Scrolling becomes optional
- Optimised for mobile scanning behaviour
- Stronger impulse-to-action potential



Optimised Structure

25%	Initial engagement check, above-the-fold extension. 100% of users get this far.
50%	Mid-page drop-off indicator, default for short content. 50 % of users get this far.
75%	Deep interest signal, key for long-form mobile pages. ~39% of users get this far.
90 to 100%	Footer/bottom reach, rare on mobile due to impatience. ~29% of users get this far.
